2635 S. Pattie
Wichita, KS 67216
stmmsamms@wichitausea.com

64 third – fifth graders

Olathe educator Don Everhart developed the program. Everhart received training by the National Geographic Society and worked for the Society in Missoula, Montana during the summer of 2001 on Lewis and Clark. During the past two years, he has traveled much of the route of the famous explorers.

The Main Street, U.S.A. program, which includes many topics, was developed during the past 10 years while Everhart was an elementary classroom teacher. He taught for 37 years in grades four through six and is a former Kansas Teacher of the Year.

More information about Lewis and Clark in Kansas is available through the Kansas Lewis and Clark Bicentennial Commission, 1501 Arrowhead Drive, Atchison, Kansas 66002, kslewisandclark@charter.net.
